

**Town of Waldoboro, Maine  
Conservation Commission Meeting Agenda  
Municipal Building Conference Room  
1600 Atlantic Hwy  
Tuesday, May 17, 2016 at 9:00 a.m.**

**Our next meeting will take place May 17 at 9AM in the town Office. My suggested agenda includes:**

**- election of a chairman - we've functioned without a chairman for 15 months, but maybe...**

**- selection of sign design...Scott has put out a sample design.**

**- speaking of signs...Emily is pursuing a program that the DOT offers to provide road signs for parks, historic points, etc. These would be, for example, at the intersection of Gross Neck and Dutch Neck roads. I have committed that we will provide input on parks.**

**-town park? Emily has indicated she may want to attend to discuss a possible new park, a la Payson Park in Warren/.**

**-the timber harvest. the town indicates that with the current price of timber, we should delay an RFQ.**

**- the great timber poach. The town has assumed that the MVLТ will pursue. I think we should.**

**- other? the dog poop controversy?**

**-fisher**

***All meetings of the Conservation Commission are open to the public.***
